## Project Title: Crochet Website

I want to create an informative website about the history and craft of crochet. I want it to be multiple pages and have a navigation bar along the top. I want the website to highlight crochet as an artform and will probably use a lot of photography since a big part of crochet is the visual artform.

- **Home Page/Introduction**
- **History of Crochet**
- **Crochet vs. Knitting**
  - The differences between the two crafts
- **The Modern Trend/Culture of Crochet**
  - Resurgence of crochet/DIY movement with covid/Tiktok
  - Also the rise of youtube tutorials and websites like Ravelry
- **How to Crochet**
  - Discusses the basic/beginner steps of Crochet
  - Maybe goes into different stitches like single crochet vs. double crochet
